Projects

Personal portfolio website

"My personal portfolio website showcases my web development projects, skills, and experiences, providing a glimpse into my creative approach and technical expertise."

AR for Tutor & VR Classroom | Unity, C#, AR Foundation, VR SDK

Created an immersive learning environment using Unity for AR and VR. Implemented 3D models, object interactions, and scene optimization for smooth real-time performance.

Museum Web Application | React.js, Node.js, CSS

Developed a responsive web app showcasing museum exhibits using React.js. Integrated APIs, optimized routes, and designed an interactive UI for smooth user experience.
